

CITY OF MIRAMAR
CONSTRUCTION AND FACILITIES MANAGEMENT DEPARTMENT

CITY ORDINANCE 14-10

**PERMITS FOR INSTALLATION OF COMMUNICATION FACILITIES
AND WIRELESS COMMUNICATION FACILITIES
WITHIN CITY'S RIGHT-OF-WAY**

Application no: _____

Registrant's name: _____

Project name and location: _____

Name of reviewer: _____ Date: _____

Check List Items			
Check "Yes" if item is complete and satisfactory. Check "No" if item is not complete or unsatisfactory.	Yes	No	Comments
General			
Applicant is registered with the City.	<input type="checkbox"/>	<input type="checkbox"/>	
Applicant's registration is current.	<input type="checkbox"/>	<input type="checkbox"/>	
Submit engineering plan signed and sealed by a Florida Registered Professional Engineer, or prepared by a person who is exempt from such registration requirements as provided in F.S. § 471.003.	<input type="checkbox"/>	<input type="checkbox"/>	
Provide notification to property owners adjoining the right-of-way where work is being proposed (see Exhibit "A").	<input type="checkbox"/>	<input type="checkbox"/>	
When applicable. Hold public meeting to discuss project with residents notified above. Provide report listing issues raised by the residents and the resolutions that were reached on the issues. Report must be provided no later than 10 days after meeting.	<input type="checkbox"/>	<input type="checkbox"/>	

Plans Review			
Plans identify the location of the proposed facilities. A maximum of 2 ground equipment boxes may be grouped together in one single location. Such locations shall be spaced a minimum of 500' from each other.	<input type="checkbox"/>	<input type="checkbox"/>	
Plans indicate a description (length and size) of facilities and/or equipment to be installed. Ground equipment boxes shall not exceed 3' wide x 3' deep x 5' high. The size and height of poles shall not exceed the height of other existing poles located in the same or similar type of right-of-way within the City.	<input type="checkbox"/>	<input type="checkbox"/>	
Plans indicate all above-ground facilities currently existing in the areas to which the permit application applies, and extending 1,000 feet beyond said areas.	<input type="checkbox"/>	<input type="checkbox"/>	
If communication poles are proposed on roads other than arterial roads, the applicant shall provide a justification and engineering analysis for the proposed location.	<input type="checkbox"/>	<input type="checkbox"/>	
Provide inventory of all existing communication or wireless communication facilities that the registrant or the registrant's predecessor's in interest has previously placed in the areas to which the permit application applies, and extending 1,000' beyond said areas within the City, as well as other areas the City finds reasonably necessary to review the permit application.	<input type="checkbox"/>	<input type="checkbox"/>	
Stealth design is utilized to minimize visual impact of proposed aboveground facilities.	<input type="checkbox"/>	<input type="checkbox"/>	
Provide maintenance of traffic plan (MOT) for any disruption or obstruction of the public rights-of-way. The MOT must be prepared by a person certified to prepare MOT plans.	<input type="checkbox"/>	<input type="checkbox"/>	
Bond			
Provide cost estimate of the work and construction bond equal to 25% of the construction cost.	<input type="checkbox"/>	<input type="checkbox"/>	

Additional information necessary to review the permit application:
